

# Your Friday Water Report

## This Week's Topic:

### Valley & Chavez Gas Line Replacement

As part of the city's ongoing system improvements to ensure safe and reliable natural gas service, utilities gas crews have been replacing aging natural gas lines. Approximately 1200 linear feet of HDPE (High Density Polyethylene Pipe) gas pipe line will be installed at Valley and Chavez Streets, the work will include the installation of 25 gas service lines. The primary objective of efforts is to address leak-prone pipe infrastructure and to preserve the public safety and maintain the reliability of the supply delivery system. Every effort will be made to minimize and mitigate any impacts to customers.
